

# 1<sup>ST</sup> COOLING INC

When your air goes out.....give us a shout!

## 1SK-6523

### 67,000 BTU/hr (5.5 Ton)

## Specifications

### Electrical Data:

Voltage/Phase/Hertz      208 / 230 / 1 / 60  
   208 / 230 / 3 / 60  
   460 / 3 / 60

Amperage                      41.2, 26.5, 12.7

Fuse Size (Amps)            60, 40, 20

Watts

NEMA plug                    Wired

**Refrigerant:**                      R-22 (176 oz)

**Evaporator CFM:**                Hi –1950 Lo – 1300

**Condenser CFM:**                Hi –2900 Lo – 1800

**Dimensions: LxWxH (in)**        29.5 x 40.0 x 78.0

**Weight: (net/ship in lbs)**        650 / 700

**Condensate Tank:**                5 US Gal

**Operating Temperature:**        60° – 115° F

Perfect for:

Workers in a factory, warehouse, laboratory, hospitals, and reception tents.  
Provides a backup if the central system goes down.

## Features and Benefits

- **Heavy-duty caster wheels makes unit easy to move**
- **High-pressure reset**
- **Adjustable Thermostat to set temp to desired setting**
- **UL/CSA listed for outdoor use**
- **Easy access to condensate tank allows quick dumping of condensate**
- **Condensate level-detection system**

## Optional Accessories

- **Ceiling discharge kit**
- **Condensate pump**
- **Nozzle kit**
- **Condenser air return plenum**
